as the **Britoil 47**, she was acquired in 2008 and extensively upgraded to suit her current duties, including replacement of both Main Engines in 2010 and major upgrade to the accommodation and living spaces and services. She now operates mainly as a Towing Vessel for Cable Laying units on a worldwide basis and, in addition, offers supply and auxiliary services on the various projects that she is involved in. She holds an extensive track record on a variety of offshore projects and is being constantly kept up to date with new equipment and careful maintenance to ensure zero downtime and highest possible performance on her employments. She will be operational beginning August.
