

DI 15:38

Dear Sirs,

I am writing an article about the tugboat CHRISTOS XXII (formerly 'BANCKERT' IMO 7230135) . She is powered with 2 x 6 cilinder Stork Wärtsilä engines type 6SW-280 - nr.13077 en 13079.

Can you give me the year of construction of those two engines?

Thank you in advance.

Sincerely,

Wim van Yperen

WO 02:26

Dear Mr Win van Yperen,
thank you for your query. Please bear with us as we search within the company for an answer. We hope to revert with the right answer as soon as possible.

Kind regards,
Dinesh from Wärtsilä Communications

WO 09:03

10:03

Hello again, the engines were manufactured in 1996.

Best regards,
Dinesh from Wärtsilä Communications
